CARE Pharmacies Offering Diabetes Education Days

Washington D.C - An estimated 18.2 million people have diabetes. Although there is a wealth of resources and education, many people don't know where to turn. This is why CARE Pharmacies is offering Diabetes Education Days for anyone with diabetes.

"Diabetes education is an important component of diabetes management," explains Gerson T. Serody, CEO of CARE Pharmacies. "We have seen tremendous benefits to our patients when they can speak directly with their Pharmacist."

During November and December of 2004, participating CARE Pharmacies will be offering complimentary Diabetes Education sessions. There will be Diabetes Educators on site as well as your trusted CARE Pharmacist. You will be able to ask questions and receive a wealth of educational materials.

"We've had Diabetes Education Days for years," explains Ed Dillon, RPh of Grubbs CARE Pharmacy. "It is rewarding to provide such valuable information to patients."

To find a complete list of dates and locations near you, please go to www.carepharmacies.com.

CARE Pharmacies is one of the leading pharmacy franchisers. CARE promotes and supports the continuing prosperity and professionalism of our community pharmacies through creation and dissemination of dynamic cooperative programs, supporting technology and buying leverage. CARE does this to enhance the success of their shareholder pharmacies and the future of community Pharmacy. For additional information or to locate a CARE Pharmacy location near you, please visit www.carepharmacies.com. Or call Richard Storey, COO of CARE Pharmacies at (703) 414-5430 and find out how you can become part of the CARE family of specialized pharmacists.
